

## Kelly T

Designer: Claesson Koivisto Rune  
Year: 2014

Kelly tables are a complete collection of proposals characterised by the same enjoyable formal language made of rounded and comfortable geometries. They are available in different types and dimensions in order to satisfy every need at home, in the office or for the contract market: square, rectangular, with central base or with four legs. The structure can be painted with different colours or chromed for more sophisticated environments. In different colours the top as well, which can have a particular finish that makes it velvety and soft to the touch.

Developed by Tacchini in Italy

## Materials informations

MDF 60%  
Metal components 40%

## Wood

Wood is a renewable raw material. All products derived from wood, such as for example plywood, have the advantage of being able to be machined more easily than wood and do not deform. The timber we use – solid or plywood – comes mainly from European and Russian forests and is seasoned to specific values of humidity with tests. Most of the structures of the products in the collection have a frame in solid pine or ash, or in beech or poplar plywood.

## Metal

The need to combine complex yet lightweight shapes with resistant materials necessarily involves the use of metals such as steel and aluminium. Products in polyurethane foam are made with an inner steel frame for adding strength to the structure. The bases are in tubular metal which can be chromed with a gloss or satin finish or painted with epoxy powders.

## Recyclability

All Kelly T elements are 100% recyclable when fully separated. Tacchini undertakes on-going research and development, with efforts made to introduce products which are a perfect combination of function and safety without jeopardizing the final design of the same articles. During production attempts are made to minimize noise and emission levels and to reduce rejects as far as possible. All the single materials which make up the production process, once disassembled, can be reused several times, maintaining a high quality standard.

## Packaging

Kelly T element is dispatched already assembled. It is protected by tissue paper and cellophane to protect the covering from dust and direct contact with the cardboard. The product is packed in rigid cardboard boxes suitable for world export. Manufacture of the packaging observes the criteria for recovery both as recycling and energy recovery and composting.

Once a product reaches the end of its life cycle it has to be eliminated.

#### Claesson Koivisto Rune

The Claesson Koivisto Rune studio was established in 1995 as a multidisciplinary architecture and design workshop, in line with the classic Scandinavian tradition, but with the aim of exploring new concepts, and pursuing the values of simplicity and innovation. The three Swedes have created architectural designs throughout the world and in every sector, from homes to restaurants, retail to executive buildings, as well as furniture ranges for numerous major international firms.

Other products by Claesson Koivisto Rune: Campo, Doodle, Doodle Armchair, Doodle Stool, Highlife, Isola, Kelly B, Kelly C, Kelly E, Kelly H, Kelly L, Kelly V, Kelly W, Lima, Lima Armchair, Misura S, M, L, XL, Montevideo, Montevideo Armchair, Pisa, Quartier, Santiago, Santiago Armchair, Spin, Split.
