Materials description

Table: backpainted glass top 8 mm thickness.

Finishes

T38

White Painted Glass

Black Painted Glass

Materials informations

Glass

Among the types of plate Glass (or simply crystal) we use, the one used on the small black tables is the linea azzurra by Glaverbel, suitable for all processes for the building, decoration, automobile and hi-tech sectors. It requires a float manufacturing process, which means that the faces of the Glass are perfectly flat and parallel. The other line, used instead on the small white tables, is the extra-clear Diamant Glass from Saint Gobain, an ideal medium for enamelling and capable of ensuring an impeccable result. The neutral colour of the edge also makes it particularly prized in the furniture industry.

Backpainted glass 100%

Recyclability

All Labanca Table elements are 100% recyclable when fully separated. Tacchini undertakes on-going research and development, with efforts made to introduce products which are a perfect combination of function and safety without jeopardizing the final design of the same articles. During production attempts are made to minimize noise and emission levels and to reduce rejects as far as possible. All the single materials which make up the production process, once disassembled, can be reused several times, maintaining a high quality standard.

Packaging

Labanca Table element is dispatched already assembled. It is protected by tissue paper and cellophane to protect the covering from dust and direct contact with the cardboard. The product is packed in rigid cardboard boxes suitable for world export. Manufacture of the packaging observes the criteria for recovery both as recycling and energy recovery and composting.

Once a product reaches the end of its life cycle it has to be eliminated.

Lievore Altherr Molina

Born in 1948, Alberto Lievore studied architecture in Buenos Aires. In the early years he focused not only on design, but also on the production and marketing of furniture, then, having moved to Barcelona, he was part of the Grupo Berenguer (1977), a leading name in Spanish design. In 1984 he inaugurated his own studio, focusing on industrial design, and on consultancy and art direction for a number of firms. His partners are designer and stylist Jeannette Altherr, who specializes in objects and spaces for children, and Manel Molina, who again brings with him vast and varied experiences in the industrial and exhibition design sectors.

Other products by Lievore Altherr Molina: Baobab, Girola, Havana, Labanca, Nara.
