Eddy

Designed by Pearson Lloyd, 2010
Cat. Chairs

Lightness and versatility are the hallmarks of Eddy chair, a fresh new addition to the Polar collection, design Pearson Lloyd. Its flowing and enveloping lines solve elegantly some concrete needs: ergonomics, practicality, adaptability. Available in two versions, with round swivel base, or with feet, Eddy chair is suitable for furnishing every type of environment: from home, office, to the collective spaces.

Developed by Tacchini in Italy

Dimensions (cm)

Cod. OEDP61 /OEDB61

W 61 D 62 H 78 cm
H seat 45 cm

Feet (OEDP61) or swivel base (OEDB61)

Non-removable covers

CAD Files:
3D (.dwg, .3ds)

Materials description

Internal frame: cold foam with metal inserts and elastic belts.

Base: wooden plate with plastic glides or swivel plate thickness 8 mm embossed black.

Upholstery: non removable cover.

Zip

White  Black

Suggested upholsteries

Silene  Citrus  Divina
Recyclability

All Eddy elements are 100% recyclable when fully separated. Tacchini undertakes on-going research and development, with efforts made to introduce products which are a perfect combination of function and safety without jeopardizing the final design of the same articles. During production attempts are made to minimize noise and emission levels and to reduce rejects as far as possible. All the single materials which make up the production process, once disassembled, can be reused several times, maintaining a high quality standard.

Packaging

Eddy element is dispatched already assembled. It is protected by tissue paper and cellophane to protect the covering from dust and direct contact with the cardboard. The product is packed in rigid cardboard boxes suitable for world export. Manufacture of the packaging observes the criteria for recovery both as recycling and energy recovery and composting.

Once a product reaches the end of its life cycle it has to be eliminated.

Elastic belts

The elastic belt used on the seats of our upholstered products is a component to be chosen with care in order to ensure adequate elasticity and springing for the dimension and the structure of the product. We use plaited elastic webbing to add greater comfort and resistance to weight stresses.

Polyurethane

Flexible expanded polyurethane is a solid elastic polymeric material with open cell structure. It is a non-toxic material and above all free from ozone-damaging components. Production and processing of the polyurethane we use meet the objectives of the new policy of ensuring the protection of human health and of the environment. We focus in particular on the choice and use of the types of density of polyurethane suitable for preserving over the years the features of load capacity, elasticity and resilience. For products used in public spaces flame-retardant expanded polyurethane is chosen, tested and certified according to international regulations.

Metal

The need to combine complex yet lightweight shapes with resistant materials necessarily involves the use of metals such as steel and aluminium. Products in polyurethane foam are made with an inner steel frame for adding strength to the structure. The bases are in tubular metal which can be chromed with a gloss or satin finish or painted with epoxy powders.

Foam

Similar to polyurethane, foam is used for moulding products with special and organic shapes. It is a material which is highly resistant to ageing and flames. Its appearance at the edges is clean, compact. All products made with a foam structure offer a solution with extraordinary comfort.

Pearson Lloyd

Pearson Lloyd is one of the leading names in contemporary British design, and this multidisciplinary studio works in a wide range of sectors: from furnishing to public spaces to brand development. Established by Luke Pearson and Tom Lloyd in 1997, the studio has received numerous acknowledgements and accolades in both Europe and the United States. The British design duo write regularly for major design magazines, as well as acting as "visiting lecturers" at the École Cantonale d'Art in Lausanne.

Other products by Pearson Lloyd:
Crystal, Crystal Armchair, Fixie, Galleria, Ischia, Nebula, Nebula Interiors, Nebula Poissons, Polar, Polar Armchair, Polar Perch, Polar Table, Quilt, Stone.
