Misura  
S, M, L, XL  

Designed by Claesson Koivisto Rune, 2007  
Cat. Armchairs
A collection of chairs with a compact, dynamic aesthetic. Misura S is the smallest chair, and the most suitable to be used at a table, be it a dining table or one in a meeting room. Misura M and L are more roomy, comfortable armchairs, designed to meet the need for relaxation both at home and in waiting rooms. Misura XL is the biggest in the family, and is sofa size. It is suitable for home and contract settings, and is also available as a sofa bed.

Recyclability

All Misura S, M, L, XL elements are 100% recyclable when fully separated. Tacchini undertakes on-going research and development, with efforts made to introduce products which are a perfect combination of function and safety without jeopardizing the final design of the same articles. During production attempts are made to minimize noise and emission levels and to reduce rejects as far as possible. All the single materials which make up the production process, once disassembled, can be reused several times, maintaining a high quality standard.

Packaging

Misura S, M, L, XL element is dispatched already assembled. It is protected by tissue paper and cellophane to protect the covering from dust and direct contact with the cardboard. The product is packed in rigid cardboard boxes suitable for world export. Manufacture of the packaging observes the criteria for recovery both as recycling and energy recovery and composting.

Once a product reaches the end of its life cycle it has to be eliminated.

Materials informations

- Polyurethane foam 42%
- Soft plywood 40%
- Upholstery 11%
- Elastic belts 7%
