

**Tacchini ISCHIA screen, designed by Pearson Lloyd,
is a winner of the WALLPAPER* DESIGN AWARDS 2018**

Italian furniture brand Tacchini is delighted to announce that the ISCHIA screen, designed by London-based design consultancy Pearson Lloyd, has been selected for a Wallpaper* Design Award 2018 in the “Best Weaves” category. The winning designs have been featured in the February 2018 issue of Wallpaper* magazine.

ISCHIA woven cane screen is part of a freely-combinable modular system that comprises of single and double seats with or without backrest and it also offers the possibility of adding a marble table. The idea is to keep any given area separate and hidden away. The ISCHIA screen works equally well in a solo context as well as part of a system. Giusi Tacchini – CEO of Tacchini – says “It is such a great honour that one of our designs has been awarded by Wallpaper*. We are very proud of our collections and our collaboration with great international designers, such as Pearson Lloyd. This recognition proves that we are working in the right direction”.
