Tacchini Review

Al Salone Internazionale del Mobile di Milano 2019 le prestigiose riedizioni del grande architetto Martin Eisler e i pezzi inediti delle più visionarie firme contemporanee, storie di bellezza prodotte dal savoir-faire di tradizione made in Brianza. In linea con il Manifesto del Salone del Mobile e le sue parole chiave, alle quali quest'anno, in tributo al genio di Leonardo da Vinci in occasione delle celebrazioni per il cinquecentenario vinciano, si aggiunge la parola “ingegno”, Tacchini Italia Forniture porta all'evento milanese l'ingegno progettuale del design brasiliano, con tutto il fascino della sua creatività intelligente e sensuale, il suo talento e la sua abilità geniale nel pensare e nel fare. Storie di bellezza che raccontano la grandezza del mondo del design di ieri e di oggi in Brasile, con un'intensità estetica che conquista al primo sguardo, testimoniando passione e ricerca nella forma e nella funzione.

At the Milanese event, Tacchini Italia Forniture presents the Brazilian designmastery, imbued by the resplendent charm of its intelligent and sensual creativity, talent as well as its ingenious ability to think and do. Tacchini is a philosophy. Behind every object there is a story and behind every story there is a person. We fall in love with our products, their stories and the stories of those who have produced them, and continue to make things by hand — so that this story continues, is passed on by the designer to the creator, and from the creator to the future owner of the product. And then, it continues further.
