

## Torii Love

Designer: Studioepe  
Year: 2023

In the console designed by Studioepe, the Torii, the traditional Japanese portals, are re-discovered through new functions and meanings. In a succession of distant visions and emotions, essential elements combine in an imposing physicality given by a very thick top – which acts as an architrave with two legs that recall supporting columns. Developed by Tacchini in Italy

### Studioepe

Internationally recognized for its eclectic and multi-faceted approach, Studioepe adopts an imaginative and multidisciplinary approach towards the world of design. The studio's distinctive signature is eloquently expressed in all the heterogeneous projects in which it has been engaged: large-scale projects in the hôtellerie field, the creation of displays for showrooms, boutiques and fair booths, or the interior design of private homes. Founded in 2006, the agency has maintained a highly recognizable identity based upon experimenting, citations and unexpected thought associations which are aimed at fostering unique projects that respect the individuality of the Client. Studioepe's projects are characterized by a strong emotional and aesthetic impact, based upon the finding the ideal balance between formal rigour and poetic vision, the ceaseless search to blend contemporary languages and codes. In the Studio's works, the unexpected becomes a constant: the bold interplay between materials, fields of colour that become the expression of space, and details that are no longer mere decoration, but delicately woven storytelling.
