Dress Code

Nato da un lavoro creativo e stilistico che non si sovrappone al design dei prodotti Tacchini, ma lo veste di ulteriori significati e valori, questo campionario rappresenta un progetto nel progetto, un dizionario di tessuti e pelli, colori e sensazioni per interpretare gli spazi, le situazioni d'uso ed i gusti più diversi. Una proposta che nasce dall'esplorazione di tante culture e linguaggi estetici, dalla tradizione tessile e conciaria, alla ricerca di materiali innovativi, garantendo sempre i massimi livelli di eccellenza qualitativa e di responsabilità ambientale.

(Eng) This fabric collection has emerged from a creative and stylish work, which does not overlie the design of Tacchini's products, but gives new relevance and values. It represents a project inside the project, a dictionary of fabrics and leathers, colors and sensations to interpret the spaces, different situations and the most various tastes. A proposal that comes from the exploration of different cultures and aesthetic languages, from the textile and tanning tradition to the research of innovating materials. High levels of qualitative excellence and environmental responsibility are always guaranteed.

(Deu) Diese Musterkollektion entsteht einer kreativen und stilistischer Arbeit, die das Design der Produkten von Tacchini nicht überläppt. Sie gibt neue Bedeutungen und Werten und bildet ein Projekt im Projekt, ein Wörterbuch von Geweben und Ledern, Farben und Gefühle, um zahlreiche Räume, Situationen und Geschmäcke darzustellen. Ein Vorschlag, das aus der Erforschung von verschiedenen Kulturen, ästhetischen Sprache, Textiltradition und aus der Suche nach innovativen Materialien kommt. Die höchste Niveaus von Exzellenz und Umweltsverantwortun sind garantiert.

(Fra) Cet échantillon a origine à partir d'un travail créatif et stylistique qui ne s'impose pas au design des produits Tacchini, mais lui donne autre sens et valeur. Il représente un projet dans le projet, un dictionnaire de tissus et cuirs, de couleurs et sensations pour interpréter les espaces, les situations et les goûts plus différents. Une proposition mise au jour par l'exploration des plusieurs cultures et langages esthétiques, dès la tradition textile et de tannage à la recherche des nouveaux matériels. Les plus hauts niveaux d'excellence qualitative et de responsabilité environnementale sont garantis.
